JOURNAL OF ELECTRON SPECTROSCOPY and Related Phenomena

Subject index

Acetylene
Absolute UV and soft X-ray photoabsorption of acetylene by high resolution dipole (e,e) spectroscopy 139
AES
Fine structure extraction without analyser function measurement R1
Angle-resolved electron energy-loss spectrum
Low-energy electron impact investigation of the triplet states of cyclopentanone and cyclohexanone 59
Angle-resolved X-ray photoelectron spectroscopy
Angle-resolved and depth profiling XPS investigation of a monolayer niobium oxide catalyst 271
ARAES
Angle-resolved XPS and AES: depth-resolution limits and a general comparison of properties of depth-profile reconstruction methods 25
ARXPS
Angle-resolved XPS and AES: depth-resolution limits and a general comparison of properties of depth-profile reconstruction methods 25
Auger
Fine structure extraction without analyser function measurement R1

Born approximation
Electron energy-loss spectroscopy in monosubstituted benzenes 13

Cadmium
Surface reactions of SO_2 with machined (polycrystalline) Zn, Cd, Cu and Ag surfaces studied by He I/II photoelectron spectroscopy 231
Catalyst
Angle-resolved and depth profiling XPS investigation of a monolayer niobium oxide catalyst 271
CDP
Angle-resolved XPS and AES: depth-resolution limits and a general comparison of properties of depth-profile reconstruction methods 25
Ceria
Effects of surface treatments, photon and electron impacts on the ceria 3d core level 89
CH_4^+ ion
The fragmentation of CH_4^+ ions from photoionization between 12 and 40 eV 209
Chalcogenide
Core and valence spectra of titanium dichalcogenides TiX_2 (where X is O, S). Experimental and theoretical studies 65
CI calculation
Many-electron effects in the valence photoemission spectrum of 1,3,5,7-cyclooctatetraene 261
Coincidence method
The fragmentation of CH_4^+ ions from photoionization between 12 and 40 eV 209
Copper
Surface reactions of SO_2 with machined (polycrystalline) Zn, Cd, Cu and Ag surfaces studied by He I/II photoelectron spectroscopy 231
Core-hole frozen orbital method
Theoretical X-ray emission spectra for the fluoromethane molecules following carbon *K*-shell ionization 283
Cu{110}
A vibrational study of chemisorbed 3-thiophene carboxylate on Cu{110} 149
Cyclohexanone
Low-energy electron impact investigation of the triplet states of cyclopentanone and cyclohexanone 59
Cyclooctatetraene
Many-electron effects in the valence photoemission spectrum of 1,3,5,7-cyclooctatetraene 261
Cyclopentanone
Low-energy electron impact investigation of the triplet states of cyclopentanone and cyclohexanone 59
Cylindrical mirror analyses
A cylindrical mirror analyser with high energy resolution 305

Depth profiling
Angle-resolved and depth profiling XPS investigation of a monolayer niobium oxide catalyst 271

Depth resolution
Angle-resolved XPS and AES: depth-resolution limits and a general comparison of properties of depth-profile reconstruction methods 25
Dichalcogenide
Core and valence spectra of titanium dichalcogenides TiX_2 (where X is O, S). Experimental and theoretical studies 65
Dimethyl ether
Primary products of the reactions of fluorine atoms with CH_3OH, CH_3SH and CH_3OCH_3 studied with ultraviolet photoelectron spectroscopy 125
Dipole spectroscopy
Absolute UV and soft X-ray photoabsorption of acetylene by high resolution dipole (e,e) spectroscopy 139
Direct photoemission spectrum
Monte Carlo simulation of inelastic background in direct and inverse photoemission 53
Doping
A comparative X-ray photoemission study of $Bi_2Sr_2CaCu_2O_{8+\delta}$ and $Bi_{1.6}Pb_{0.4}Sr_2CaCu_2O_{8+\delta'}$ 293
DOS
Core and valence spectra of titanium dichalcogenides TiX_2 (where X is O, S). Experimental and theoretical studies 65

EELS
Electron energy-loss spectroscopy in monosubstituted benzenes 13
Electron energy analyser
A cylindrical mirror analyser with high energy resolution 305
Electron energy analyses
Characterization of a Zr Mζ ($h\nu$ =151.6 eV) source for soft X-ray photoemission spectroscopy 249
Electron energy loss spectroscopy
A vibrational study of chemisorbed 3-thiophene carboxylate on Cu{110} 149
Electron energy-loss spectrum
Low-energy electron impact investigation of the triplet states of cyclopentanone and cyclohexanone 59
Electron optical property
A cylindrical mirror analyser with high energy resolution 305
ESCA
Angle-resolved XPS and AES: depth-resolution limits and a general comparison of properties of depth-profile reconstruction methods 25

Fine structure extraction
Fine structure extraction without analyser function measurement R1
Fine structure
Rotational fine structure in the UV photoelectron spectra of HF and HCl 105
Fluorine
Primary products of the reactions of fluorine atoms with CH_3OH, CH_3SH and CH_3OCH_3 studied with ultraviolet photoelectron spectroscopy 125
Fluoromethane
Theoretical X-ray emission spectra for the fluoromethane molecules following carbon *K*-shell ionization 283
Fragmentation
The fragmentation of CH_4^+ ions from photoionization between 12 and 40 eV 209
Fully relaxed orbital method
Theoretical X-ray emission spectra for the fluoromethane molecules following carbon *K*-shell ionization 283

Green's function
Many-electron effects in the valence photoemission spectrum of 1,3,5,7-cyclooctatetraene 261
Ground state frozen orbital method
Theoretical X-ray emission spectra for the fluoromethane molecules following carbon *K*-shell ionization 283
Growth mode
X-ray photoelectron spectroscopic study of Si(111) oxidation promoted by potassium multilayers under low O_2 pressures 81

High-temperature superconductor
A comparative X-ray photoemission study of $Bi_2Sr_2CaCu_2O_{8+\delta}$ and $Bi_{1.6}Pb_{0.4}Sr_2CaCu_2O_{8+\delta'}$ 293
HREELS
HREELS detection of resonance electron scattering in oriented polytetrafluoroethylene films R5
Hydrogen chloride
Rotational fine structure in the UV photoelectron spectra of HF and HCl 105
Threshold photoelectron spectroscopy of HCl up to 40 eV 217
Hydrogen fluoride
Rotational fine structure in the UV photoelectron spectra of HF and HCl 105

Indirect photoemission spectrum
Monte Carlo simulation of inelastic background in direct and inverse photoemission 53

Langmuir–Blodgett
Photoelectron and NEXAFS microscopy of radiation induced changes in cadmium arachidate films 239

Low energy ion scattering
Titanium and reduced titania overlayers on titanium dioxide(110) 1

Mζ emission
Characterization of a Zr Mζ ($h\nu$ =151.6 eV) source for soft X-ray photoemission spectroscopy 249
Methyl alcohol
Primary products of the reactions of fluorine atoms with CH_3OH, CH_3SH and CH_3OCH_3 studied with ultraviolet photoelectron spectroscopy 125
Molybdenum tetracarboxylate
Variable photon energy photoelectron spectroscopy of $Mo_2(O_2CCF_3)_4$ 157
Monosubstituted benzene
Electron energy-loss spectroscopy in monosubstituted benzenes 13
Monte Carlo model
Monte Carlo simulation of inelastic background in direct and inverse photoemission 53

$NbO_x/SiO_2/Si(100)$
Angle-resolved and depth profiling XPS investigation of a monolayer niobium oxide catalyst 271
NEXAFS
Photoelectron and NEXAFS microscopy of radiation induced changes in cadmium arachidate films 239

Oxygen diffusion
X-ray photoelectron spectroscopic study of Si(111) oxidation promoted by potassium multilayers under low O_2 pressures 81

PES
Effects of surface treatments, photon and electron impacts on the ceria 3d core level 89
Phosphorus
The nature of the phosphorus–metal bond in triphenylphosphine–transition metal complexes ($Pd[P(C_6H_5)_3]_4$, $Rh(CO)Cl[P(C_6H_5)_3]_2$ and $Ir(CO)Cl[P(C_6H_5)_3]_2$. A direct determination of the importance of P3d and P–C σ^* orbitals in 'back-bonding' by X-ray emission spectroscopy 163
Photoelectron spectroscopy
Variable photon energy photoelectron spectroscopy of $Mo_2(O_2CCF_3)_4$ 157
Many-electron effects in the valence photoemission spectrum of 1,3,5,7-cyclooctatetraene 261
Photoionization
The fragmentation of CH_4^+ ions from photoionization between 12 and 40 eV 209

Potassium oxide
X-ray photoelectron spectroscopic study of Si(111) oxidation promoted by potassium multilayers under low O_2 pressures 81
PTFE
HREELS detection of resonance electron scattering in oriented polytetrafluoroethylene films R5

Relative partial photoionization cross section
Variable photon energy photoelectron spectroscopy of $Mo_2(O_2CCF_3)_4$ 157
Resonance electron scattering
HREELS detection of resonance electron scattering in oriented polytetrafluoroethylene films R5
Resonance
Variable photon energy photoelectron spectroscopy of $Mo_2(O_2CCF_3)_4$ 157

Silicon oxidation
X-ray photoelectron spectroscopic study of Si(111) oxidation promoted by potassium multilayers under low O_2 pressures 81
Silver
Surface reactions of SO_2 with machined (polycrystalline) Zn, Cd, Cu and Ag surfaces studied by He I/II photoelectron spectroscopy 231
Simulation
Monte Carlo simulation of inelastic background in direct and inverse photoemission 53
Soft X-ray photoabsorption spectroscopy
Absolute UV and soft X-ray photoabsorption of acetylene by high resolution dipole (e,e) spectroscopy 139
Soft X-ray photoelectron spectroscopy
Synchrotron spectroscopy of molecules at high resolution 173
Characterization of a Zr Mζ ($h\nu$ =151.6 eV) source for soft X-ray photoemission spectroscopy 249
Spectromicroscopy
Photoelectron and NEXAFS microscopy of radiation induced changes in cadmium arachidate films 239
Sulphur dioxide
Surface reactions of SO_2 with machined (polycrystalline) Zn, Cd, Cu and Ag surfaces studied by He I/II photoelectron spectroscopy 231
Superconductor
A comparative X-ray photoemission study of $Bi_2Sr_2CaCu_2O_{8+\delta}$ and $Bi_{1.6}Pb_{0.4}Sr_2CaCu_2O_{8+\delta'}$ 293
Synchrotron radiation
Synchrotron spectroscopy of molecules at high resolution 173
Electron spectroscopy of atoms and molecules using synchrotron radiation 191
Threshold photoelectron spectroscopy of HCl up to 40 eV 217

Synchrotron spectroscopy
Synchrotron spectroscopy of molecules at high resolution 173

Thiomethanol
Primary products of the reactions of fluorine atoms with CH_3OH, CH_3SH and CH_3OCH_3 studied with ultraviolet photoelectron spectroscopy 125
Threshold photoelectron spectroscopy
Threshold photoelectron spectroscopy of HCl up to 40 eV 217
Throphene carboxylate
A vibrational study of chemisorbed 3-thiophene carboxylate on Cu{110} 149
TiO_2(110)
Titanium and reduced titania overlayers on titanium dioxide(110) 1
Titania
Titanium and reduced titania overlayers on titanium dioxide(110) 1
Titanium dichalcogenide
Core and valence spectra of titanium dichalcogenides TiX_2 (where X is O, S). Experimental and theoretical studies 65
Titanium
Titanium and reduced titania overlayers on titanium dioxide(110) 1
Transition metal
The nature of the phosphorus–metal bond in triphenylphosphine–transition metal complexes ($Pd[P(C_6H_5)_3]_4$, $Rh(CO)Cl[P(C_6H_5)_3]_2$ and $Ir(CO)Cl[P(C_6H_5)_3]_2$. A direct determination of the importance of P3d and P–C σ^* orbitals in 'back-bonding' by X-ray emission spectroscopy 163
Transition state method
Theoretical X-ray emission spectra for the fluoromethane
molecules following carbon *K*-shell ionization 283
Triphenylphosphine
The nature of the phosphorus–metal bond in triphenylphosphine–transition metal complexes ($Pd[P(C_6H_5)_3]_4$, $Rh(CO)Cl[P(C_6H_5)_3]_2$ and $Ir(CO)Cl[P(C_6H_5)_3]_2$. A direct determination of the importance of P3d and P–C σ^* orbitals in 'back-bonding' by X-ray emission spectroscopy 163
Triplet state
Low-energy electron impact investigation of the triplet states of cyclopentanone and cyclohexanone 59

Ultraviolet photoelectron spectroscopy
Rotational fine structure in the UV photoelectron spectra of HF and HCl 105
Primary products of the reactions of fluorine atoms with CH_3OH, CH_3SH and CH_3OCH_3 studied with ultraviolet photoelectron spectroscopy 125
Surface reactions of SO_2 with machined (polycrystalline) Zn, Cd, Cu and Ag surfaces studied by He I/II photoelectron spectroscopy 231
UVIPS
Monte Carlo simulation of inelastic background in direct and inverse photoemission 53

Vacuum ultraviolet spectroscopy
Absolute UV and soft X-ray photoabsorption of acetylene by high resolution dipole (e,e) spectroscopy 139
Synchrotron spectroscopy of molecules at high resolution 173
Electron spectroscopy of atoms and molecules using synchrotron radiation 191
Valence band X-ray emission spectroscopy
The nature of the phosphorus–metal bond in triphenylphosphine–transition metal complexes ($Pd[P(C_6H_5)_3]_4$, $Rh(CO)Cl[P(C_6H_5)_3]_2$ and $Ir(CO)Cl[P(C_6H_5)_3]_2$. A direct determination of the importance of P3d and P–C σ^* orbitals in 'back-bonding' by X-ray emission spectroscopy 163

X-ray beam damage
Effects of surface treatments, photon and electron impacts on the ceria 3d core level 89
X-ray emission spectra
Theoretical X-ray emission spectra for the fluoromethane molecules following carbon *K*-shell ionization 283
X-ray emission spectroscopy
The nature of the phosphorus–metal bond in triphenylphosphine–transition metal complexes ($Pd[P(C_6H_5)_3]_4$, $Rh(CO)Cl[P(C_6H_5)_3]_2$ and $Ir(CO)Cl[P(C_6H_5)_3]_2$. A direct determination of the importance of P3d and P–C σ^* orbitals in 'back-bonding' by X-ray emission spectroscopy 163
X-ray photoelectron spectroscopy
Titanium and reduced titania overlayers on titanium dioxide(110) 1
Core and valence spectra of titanium dichalcogenides TiX_2 (where X is O, S). Experimental and theoretical studies 65
X-ray photoelectron spectroscopic study of Si(111) oxidation promoted by potassium multilayers under low O_2 pressures 81
Photoelectron and NEXAFS microscopy of radiation induced changes in cadmium arachidate films 239
Angle-resolved and depth profiling XPS investigation of a monolayer niobium oxide catalyst 271

A comparative X-ray photoemission study of $Bi_2Sr_2CaCu_2O_{8+\delta}$ and $Bi_{1.6}Pb_{0.4}Sr_2CaCu_2O_{8+\delta'}$ 293
XIPS
Monte Carlo simulation of inelastic background in direct and inverse photoemission 53
Zinc
Surface reactions of SO_2 with machined (polycrystalline) Zn, Cd, Cu and Ag surfaces studied by He I/II photoelectron spectroscopy 231
